

In line carbon steel ball check valves

FT 260/6

In line check valves available from 1/8" to 1" bsp, Max.working pressure 400/320 Bar, oil flow rate up to 160 Lt./min. (depending on the size)

In line

Direct control

Carbon steel

Technical information

Technical description

They are inserted in branches of the circuit where the free flow in one direction is allowed and the return flow in the opposite direction is not possible. In line single-acting valves are of ball type with alignment guide made of composite high resistance material which allows a total passage and an excellent resistance to the use and the breaking strength, confirmed by numerous tough tests. They are available with two different cracking pressure (0,35 standard e 4.5 bar).

Materials

CORPO VALVOLA / BODY VALVE	Acciaio / Steel 11 S Mn Pb 37-UNI EN 10087
MOLLA / SPRING	Acciaio / Steel AISI 302
SFERA / BALL	UNI 100 C6- EN ISO 683-17
GUIDA SFERA / BALL GUIDE	Nylon 66 + Fibra carbonio / Carbon Fiber
